WE take pleasure in submitting this list of Bulbs, Seeds and Plants for your consideration. Our selection includes what we consider to be the very best varieties, those that have proven by test to be everything that they are recommended to be.

Please note particularly our lists of Narcissi and Tulips; new varieties in each class have been added to the best of the older sorts. For our exhibit of New Tulips we were awarded a Gold Medal at the New York International Flower Show in March, 1931, and this year a Gold Medal was awarded us for our exhibit of Narcissi consisting of 150 named varieties. Varieties for rock garden work are also offered.

Nothing but the finest material will be sent out and we feel certain a trial order will convince any new customer of the excellence of our stock.

Every member of our organization has to his credit **more than thirty years'** experience in the various branches of Horticulture so you may be sure your order will be handled by **practical seedsmen or plantsmen**; men whose first interest is and always will be to take care of their patrons in a manner that is thoroughly satisfactory.

Correspondence on horticultural subjects is invited and your patronage is respectfully solicited.

Business Terms: Prices quoted in this catalog are net, 30 days. All goods are offered, subject to being unsold on receipt of order and we reserve the right to change prices, if current conditions require it.

All goods travel at purchaser's risk after they are in the hands of any common carrier.

Orders from unknown parties must be accompanied by cash or satisfactory references.

Claims must be made on receipt of goods, otherwise they will not be considered.

Packing will be charged extra at cost.

NON-WARRANTY

While we take care to send out only such goods that under proper conditions produce satisfactory results, we still give no warranty as to description, quality or productiveness of any seeds, bulbs or plants we send out and will not be in any way responsible for the crop. All orders for articles named in this catalog will be executed on these conditions only.

MIXED NARCISSI FOR NATURALIZING

These are particularly suitable for mixed borders, for naturalizing in shrubbery, by woodland walks, in the woods by streams and lakes, or in semi-wild outlying positions. They are perfectly hardy and will flourish and increase for years. Bulbs may be planted either in partial shade or in the full sun and they seem to thrive equally well in any ordinary soil.

We recommend that a mixture of the Large Trumpets and Short Cups be planted together as in this way the flowering period is extended. Exceptionally fine mixtures are offered as follows: 100 1000

Large Trumpets, Mixed..... \$4.50 \$40.00

Short Cups, Mixed..... 3.50 28.00

Flowering Plants for Winter Forcing

DELIVERY: OCTOBER-NOVEMBER

AZALEA INDICA

These highly decorative plants are now successfully raised in this country. They have a wide range of color and the flowers will keep from four to six weeks after being forced, provided they are not kept where the heat is too excessive. If on arrival the roots appear dry, soak them well in a pail of water. After being potted, place them in cool greenhouse. As the desired time for forcing is at hand, they should be transferred to a warmer house and in the process of forcing, the temperature should be increased to from 60-70 deg. until the flowers appear. As flowers develop, temperature should be reduced to give them more substance. Plants that are to flower in early Spring do not require this intense treatment. As some varieties are better adapted for early forcing, we are listing them in the order of flowering.
